Oncidium Alliance

Selected Orchids

*to grow
with Cattleyas*

TALK ABOUT TIME!

1959 was a year long to be remembered at Wm. Kirch—Orchids, Ltd. We shipped more orchid plants to more parts of the World than ever before in our entire history. In addition, more of you have written back stating you are now flowering many of the baby seedlings sent you in past years. Naturally, not all of them were winners—but a very good proportion seem to be more than making their mark in Awards, Show Winners, and personal satisfaction to their owners. This of course is to us their parents, so to speak, most gratifying.

1960 arrives with our being able to offer you more and more new interesting plants. As in 1959, we plan to issue five or six separate price lists. This is the first. In it are combined all of the unusual plants we are growing that we feel are compatible to what might be called normal Cattleya conditions. Thus in simple words, if you are growing Cattleyas, you can take any plant from this list and grow it as a companion plant to your Cattleyas with full confidence of its ability to grow and succeed under those conditions.

You will note an expansion of the Oncidium group, and the most interesting inter-generic hybrids in this Alliance. Most of the credit for this work must go to our very great friend and colleague, Mr. W. W. G. (Goodale) Moir. His untiring efforts and great perspective of what can be done with many of these species has now given to the orchid world some of the most charming new hybrids to arrive in the past decade. Truly the world owes this great Floriculturist a note of thanks. It has been our pleasant task to translate his vision into production to allow you to add these plants to your collections.

Many of the new Cattleya-like plants also are most charming. Cattleytonia, Dia-Cattleya—Terete Brassovola—Schombo combi-

nations may all be new words to you. Don't let the botanical jargon scare you. Gems are Gems, regardless of name and in this group are truly many gems. Try some, when you exhibit them you will be more than pleased with their performance.

As per usual, I always like to take this opportunity to state our policies so you know those you are dealing with. We are a marketing corporation—owned and operated by six Hawaiian orchid nurseries. We are not brokers, dealers, or middlemen. Everything we sell we produce in our own nurseries. Above all, we are human and far from infallible. As Humans, we make mistakes and if you will take time when we do, to let us know, we will be the first to correct them. We stand behind everything we sell, 100%. We guarantee safe delivery—but if we have erred, you must let us know. We want to know, as you, our customers are the foundation of our business. Your satisfaction controls our growth.

All of our growers, our staff and myself, would like to wish each and everyone of you a Happy and Prosperous 1960! It is indeed a happy thought to find all of the world nearer peace and understanding than has been true in many years. We sincerely hope this course pursues and that as a result all of us become greater friends. We shall strive to see that the orchids we produce will be good ambassadors from Hawaii to the World.

Aloha,

WM. KIRCH

CATTLEYA AND ALLIED GENERA

Blc. Wake Island var. The Queen

Many new advancements have been made in the breeding of this large section of orchids. Particularly is this true of the new small types such as Dia-Cattleya, Epi-Cattleya, Cattleytonia, etc. We are this year placing all of these plants in one large group with subdivisions for each section. Culture is the same for all groups.

CULTURE:

These are among the easiest of all orchid plants for the amateur to grow. If you are just starting, Cattleyas will give you what you want. They can be quite successfully grown in many locations without a glass house.

They should be grown in a temperature range of not less than 55° F., at night with a daily range not to exceed 30° F., above the current night temperature. Thus, if your night temperature was maintained at 55° F., the maximum rise during the following day should not exceed 85° F.

Potting can be done in Osmunda Fibre, Ha-

waiian Tree-Fern, or any of the new Bark composts. We highly recommend the latter, due to ease of use and handling thereafter.

Cattleyas should be watered as often as they get dry. Location, type of potting media, season, state of growth of the plant, and light, all play an important part in the speed with which a plant will dry out. There is no hard or fast rule—Observe your plant and when it is dry, give it a good soaking. Then do not water again until dry.

Cattleyas will benefit by the use of fertilizers. Again, several factors are important as to the use of fertilizer. Light, rate of growth of the plant, season all are important. Remember, plants are like humans; when active they eat more, when dormant less. Use your good common sense as a guide. Any complete liquid fertilizer recommended for orchids is suitable.

If you have a specific problem, write to us. We will be happy to try and solve it for you.

LARGE FLOWERED CATTLEYA TYPE HYBRIDS

This group is the large flower that is so highly prized for display and cut flower purposes. In it you will find combinations involving the genera: Cattleya, Laelia, Brassovola, and Sophronitis. The crosses we offer are bred to give the maximum in quality.

EPI-CATTELEYA TYPE CROSSES

This group of Cattleya-like Hybrids has grown tremendously in popularity in the past two or three years. When we introduced Epi. Cattleya Ecstasy and Epi. Cattleya Gaiety, they were immediate hits. We have therefore expanded our breeding in this group and are very pleased to offer this outstanding collection of crosses. Culture as for any Cattleya.

- OC-119—C. Priscilla Ward x E. Aromaticum—Green to cream, Spring. 1 1/2", 2"
- OC-120—E. Fragrans x C. Guatemalensis—Plum color, Spring. 1 1/2", 2", 3"
- OC-121—E. Bifidum x Sc. Poni—Bronze lavender, Fall. 1 1/2", 2"
- OC-122—E. Prismatocarpum x S. Lyonsii—Cream-spotted, Fall. 1 1/2", 2"
- OC-123—E. Vitelinum majus x D. Bicornutum—White to orange, Fall. 1 1/2", 2"
- OC-124—E. Bifidum x C. Bowringiana—Bronze lavender, Fall. 1 1/2", 2", 3"

- OC-135—E. Brownie x Nemorale—Bronze lavender, Spring. 1 1/2", 2"
- OC-136—E. Olorosum x Selligerum—Lavender, Summer-Fall. 1 1/2", 2"
- OC-137—E. Atropurpureum x Nemorale—Very dark pink, Spring. 1 1/2", 2"
- OC-138—E. Nemorale x Inophlebium—Baby pink, Spring. 1 1/2"
- OC-139—E. Brownie x Atropurpureum—Dark lavender, Spring. 1 1/2", 2"
- OC-140—E. Xiphery x Tampense—Cream, huge spikes, Summer. 1 1/2", 2"
- OC-141—E. Atropurpureum (Species)—Fine lavender, Spring. 5"
- OC-142—E. Selligerum (Species)—Lavender, Summer-Fall. 4"
- OC-143—E. Cocheleatum x Brownie—Green with purple, Winter. 3", 4"
- OC-144—E. Brownie x Plicatum—Lavender bronze, Spring. 2", 3"

DIACRIUM CROSSES

This, like the Epi-Cattleyas is a new group that is enjoying a very high popularity. Our Dia-Cattleya Chastity has been greatly admired by all that have seen it. Without any doubt these will be grown more and more in the amateur collections. Culture as for Cattleya.

- OC-158—C. Amethysloglossa x D. Bicornutum—Pink, Spring. 1 1/2"
- OC-159—Dc. Chastity (C. Granulosa x Bicornutum)—Green-pink or white, Various. 1 1/2", 2", 3"
- OC-160—Lc. Issy x D. Bicornutum—Pink to lavender, Fall. 1 1/2", 2"
- OC-161—L. Firefly x D. Bilamellatum—Red to orange, Spring. 1 1/2", 2"
- OC-162—Schom. Luddemaniana x D. Bicornutum—Bronze, Summer. 3", 4"
- OC-163—S. Luddemaniana x D. Bilamellatum—Bronze, Fall. 1 1/2", 2"
- OC-164—Lc. Issy x D. Bilamellatum—Purple, Fall. 1 1/2", 2"

- OC-165—*Dekensera Panama* x *D. Bilamellatum*—Purple, Spring. 1½", 2"
 OC-166—*Schom. Humboldtii* x *D. Bicornutum*—White to flush, Spring. 1½", 2"
 OC-167—*Lc. Pixie* x *D. Bicornutum*—Yellow to cream, Spring. 3"
 OC-168—*L. Purpurata Alba* x *D. Bicornutum*—White/purple lip, Spring. 4"
 OC-169—*D. Bicornutum (Species)*—Pure white, Spring. 4"

SCHOMBURGHKIA HYBRIDS

These are tall growing plants with long spikes of beautiful flowers. They need a large glass house or outdoor culture. They are tolerant of cool conditions and will grow outside anywhere you can grow *Cymbidiums*.

- OC-170—*Sc. Harry Dunn* x *L. Autumnalis*—Very dark lavender, Winter. 2", 3", 4"
 OC-171—*S. Lyonsii dark* x *L. Autumnalis*—Dark red lavender, Fall. 2", 3"
 OC-172—*C. Guttata-Lc. Calizona* x *S. Lyonsii Alba*—Dark yellow to Bronze, Summer. 1½"
 OC-173—*C. R. Prowe* x *S. Lyonsii Alba*—White, Spring. 1½", 2", 3"
 OC-174—*S. Humboldtii* x *C. Skinneri Alba*—Pale Pink, Spring. 1½", 2"
 OC-175—*S. Crispa* x *Epi. Atropurpureum*—Dwarf plant, Ruby Red, Spring. 2", 3"
 OC-176—*S. Crispa* x *L. Purpurata Alba*—White/purple lip, Spring. 2"
 OC-177—*Sc. Harry Dunn (C. R. Prowe x Luddeமானiana)*—Bronze to Lavender, Fall. 1½", 2", 6"
 OC-178—*S. Lyonsii* x *C. Guttata*—Cream-dark spotted, Fall. 1½"
 OC-179—*Sc. Harry Dunn* x *C. Bowringiana*—Dark lavender, Fall-Winter. 1½", 2"
 OC-180—*S. Lyonsii Alba* x *Bc. Mrs. Leeman*—Cream to pale yellow, Spring. 3"
 OC-181—*Sbc. Panama* x *Lc. Kahili Kea*—Pink, long spikes, Winter. 2", 3"
 OC-182—*S. Crispa* x *L. Rubescens*—Red lavender, Spring. 3", 4"
 OC-183—*Lc. Issy* x *S. Thompsonii*—Dark bronze lavender, Fall. 3", 4"
 OC-184—*C. R. Prowe* x *S. Thompsonii*—Flush pink, Spring. 3", 4"
 OC-185—*Epi. Biffidum* x *Sc. Poni*—Bronze lavender, Spring. 1½"
 OC-186—*S. Lyonsii* x *Epi. Biffidum*—Bronze-spotted, Spring. 1½"
 OC-187—*Lc. Golden Gate* x *S. Kalihi*—Bronze dark, Summer-Fall. 1½"

BROUGHTONIA HYBRIDS

Using the species *Sanguinea* in various combinations these hybrids show great promise. Our little *Cattleytonia Rosy Jewell* being among the loveliest miniature *Cattleya* types ever seen.

- OC-188—*Cat. Rosy Jewell (B. Sanguinea x C. Bowringiana)*—Salmon to Rosy Red, Fall. 1½"
 OC-189—*Diabroughtonia Alice Hart (B. Sanguinea x D. Bicornutum)*—Deep rose pink, Winter. 1½", 2"
 OC-190—*Epi. Biffidum* x *B. Sanguinea*—Dark red bronze, Winter-Spring. 3"
 OC-191—*B. Sanguinea* x *L. Autumnalis*—Dark red, Fall. 1½", 2", 3"
 OC-192—*B. Sanguinea* x *L. Domingensis Alba*—Pink, Fall. 1½"

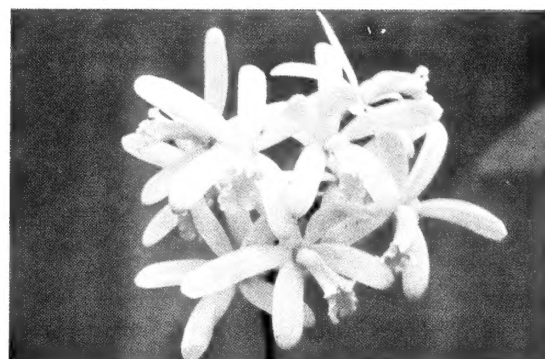

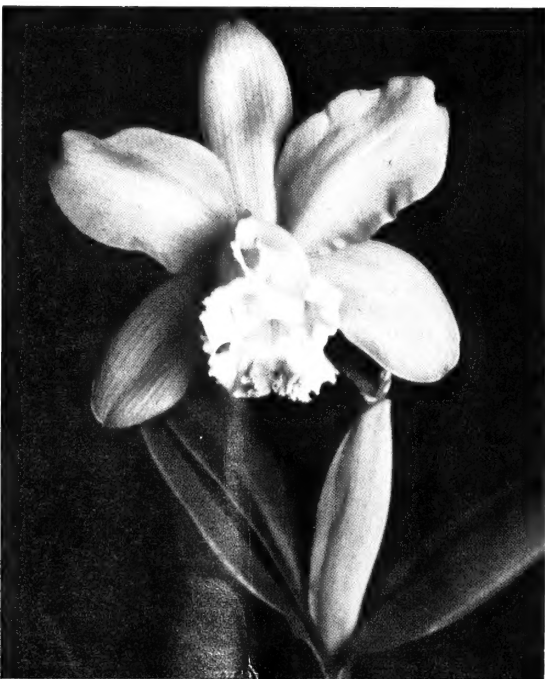

C. Bow Bells var. Honolulu x Self

TERETE BRASSOVOLA CROSSES

This is without any question of a doubt one of the finest new group of novelty hybrids for exhibition purposes developed in the past few years. Dwarf plants—most free flowering—very easy culture. By all means try these. Culture as for *Cattleya*.

- OC-193—*B. Cordata* x *C. Bowringiana*—Dark pink, Winter. 1½", 2"
 OC-194—*B. Amazonica* x *Epi. Claviatum*—White/yellow lip, Summer. 1½"
 OC-195—*L. Xanthina-Lc. Interbrota* x *B. Amazonica*—Yellow/purple lip, Spring. 1½", 2"
 OC-196—*Bc. Gold Strike (B. Cordata x C. Aureole-Lc. R. H. Jewell)*—Beautiful clear yellow, Fall-Winter. 1½", 2"

C. Dolosa

Laelia Flava

- OC-197—*Bc. Nani Pua Kea (B. Nodosa x C. Hardyana Alba)*—Large, pure white, Fall-Winter. 4"
 OC-198—*S. Cernua-B. Nodosa x C. Aurantiaca*—Dark Orange, small flower dwarf plant. 1½"
 OC-199—*B. Acaulis (Species)*—Long star like flowers, white, Spring. logs
 OC-200—*B. Cordata (Species)*—Green, white, Fall. logs
 OC-201—*B. Nodosa (Species)*—White green lip, Winter, logs
 OC-202—*B. Cuculata (Species)*—White and purple, Spring. logs
 OC-203—*E. Fragrans* x *B. Cordata*—White flushed purple, Fall. 4"

C. Guttata

CYPRIPEDIUM

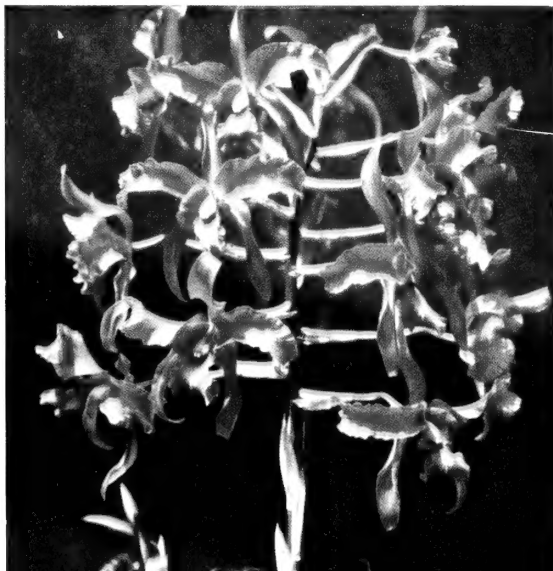

Our collection of these plants is unique in that every plant has been selected to be tolerant and to flower under warm conditions. Thus, Hawaiian grown Wm. Kirch—Orchids, Cyps are ideal for many regions that up to now have been listed as poor regions to try and grow Cyps. We make particular reference to Malaya, Central America, The Caribbean, Thailand, Southern United States, etc. We feel sure you will enjoy growing them.

CULTURE:

50% shade, keep moist at all times. Pot in a rich organic compost. Fertilize frequently.

- OC-204—Athal House (Carola x Louvain)—Large, spotted. 5"
 OC-205—Hestia var. Gigantea (Cyclops x Lady Dillon)—Spotted. 5"
 OC-206—Nena var. Giganteum (Christopher x Senator)—Yellow, spotted. 5"
 OC-207—Lucarola (Carola x Lucernala)—Spotted. 5"
 OC-208—Noblesse (Cardinal Mercer x Nesta II)—Red. 4"
 OC-209—Alma Gavert (Lawrencianum x Maudiee)—Very fine green and white. 5"
 OC-210—Houdon (Carpeaux x Mastiff)—Green and brown. 5"
 OC-211—Magnolia (Cardinal Mercer x Niobe)—Green-brown. 5"
 OC-212—Warrior Green's var. (Alcibiades x Lord Wolmer)—Green, spotted. 5"
 OC-213—Alcibiades var. Magnificum (Leeanum x Mons de Curte)—White & Brown. 5"
 OC-214—Sir Redvers Buller (Insigne x Smithii)—Purple Red. 4"
 OC-215—The Major Bectons var. (Gaston Butel x Harrisoniana)—Mahogany red. 5"
 OC-216—Mauretania (Alcibiades x F. M. Ogilvie)—Spotted. 5"
 OC-217—Estrella (Christopher x Grace Darling)—Yellow, green. 5"

Schombo-Cattleya Harry Dunn

- OC-218—Dillys var. Extra (Adorn x Etta)—Spotted. 5"
 OC-219—Amberly Gem (Earl of Tankerville x Formidable)—Spotted dwarf. 5"
 OC-220—Ansun (Anita x Sunbeam)—Yellow, fine shape. 5"
 OC-221—Wellesley x Woodnote—Deep green. 5"
 OC-222—Leeanum var. Hawaii (Insigne x Spicerianum)—Green and Brown. 4", 5"
 OC-223—Leeanum var. Clinkkaberrianum—Fine shape. 5"
 OC-224—Cappamagna vavr. Christmas Cheer F.C.C.R.H.S. (Cardinal Mercer x Nubia)—Red. 5"
 OC-225—Cappamagna var. Fred Sanders F.C.C.R.H.S.—Red. 5"
 OC-226—Ingress (Atlantis x Leemanii Ducis)—Red. 5"
 OC-227—Sunset var. Manchurian (Earl of Chester x Maudiae)—Dark red. 5"
 OC-228—Leyburnense var. Magnificum (Royal George x Sir Redvers Buller)—Pink-red. 5"
 OC-229—Martha Ramford (Parentage Unknown)—Green and Brown. 5"
 OC-230—Harrisonianum var. Superbum—Purple red. 5"
 OC-231—Royal George (Harrisonianum x Mimos)—Dark red. 5"
 OC-232—Noel Hardy (Nirvana x Nitens)—Green and White. 5"
 OC-233—Cyclops A.M.R.H.S. (Actaeus x Fulshawense)—Green and brown, spotted. 5"
 OC-234—Col. Cary Batten x Golden Wren—Yellow, brown. 5"
 OC-235—Claire de Lune var. Edgar Van Belle (Emerald x Alma Gavert)—Best of the green and white. 5"
 OC-236—Blue Order (Hestia x Nancie Gamble)—White and brown, Fine. 5"
 OC-237—Round Head (Earl of Tankerville x Nitens)—Fine shape, spotted. 5"
 OC-238—Bonita (Great Mogul x Nancie Gamble)—Spotted, neat flower. 5"
 OC-239—Semiramis Westonbirt var. (Juliet x Lady Phulmonii)—Large, spotted. 5"
 OC-240—Tendresse (Mildred Hunter x Wendover)—Mahogany Red. 5"

WHITE CYPRIPEDIUMS

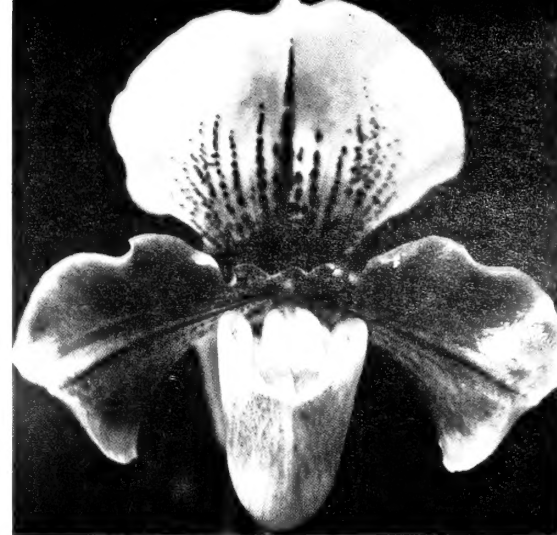

These are the jewels of this group of orchids. Very free flowering—and most easy to grow—Give yourself a treat and add one of these beauties to your collection.

- OC-241—Phips (Aureum x Boltonii) 4"
 OC-242—Venus (Insigne x Niveum). 4"
 OC-243—Rosy Dawn (Gwenn Hannen x Astarte). 5"
 OC-244—Astarte (Insigne x Niveum). 5"

CYPRIPEDIUM SPECIES

Culture as for the Hybrids. Most of these we list are relatively rare and make fine additions to the collection. They certainly offer diversity of flower form and pleasure of exhibition.

- OC-245—Purpuratum (China)—White, purple stripes. 4"
 OC-246—Niveum (Indo-China)—White, Bird's egg spots. 4"
 OC-247—Curtisii (Sumatra)—Green and purple. 4"
 OC-248—Tonsum (Sumatra)—Green, white, veined green. 4"
 OC-249—Glaucophyllum (Java)—One of the finest green and purple. 4", 5"
 OC-250—Lowii (Borneo)—Yellow, spotted purple and brown, Fine. 5"
 OC-251—Callosum (Siam)—White, veined purple. 5"

Cypridium Blue Order

SELENEPEDIMUM

These are the Central and South American counterparts of the Asian Lady Slippers. Tropical in origin, they are ideally suited to warm climates. Culture as for Cypridiums.

- OC-252—Caudatum (Central America)—Green and pink, lovely miniature. 4"
 OC-253—Grande (Caudatum x Longifolium)—Green, brown, The Fu Manchu Orchid. 6"
 OC-254—Sedenii (Longifolium x Schlumieri)—Rose pink. 5"

Group Cypridium Hybrids

ONCIDIUM ALLIANCE

This section is probably the one which has expanded more rapidly than any other in our nurseries in the past few years. Purpose of breeding has been to create a range of material that would allow growers that do not have air conditioned houses and those in tropical countries, to grow orchids similar to the cool-growing *Odontoglossum* hybrids.

Many surprises have resulted in this breeding. The *Miltonias* of the warm growing type make excellent cut flowers, whereas the cool types will not stand up when cut. The miniature *Oncidiums* are the finest little pot plants we have ever seen. Intergeneric hybrids produce all sorts of wonderful surprises both as to shape and color. Anyone that can grow *Cattleyas* can grow these plants and while they are basic spray orchids, we are including them in our *Cattleya* catalogue for this reason. We will group them in sections to allow you to better understand their characteristics.

CULTURE:

These plants are light lovers and will stand considerably more light than most orchids. Grow toward the dry side as to water. Fertilize frequently when in growth. Do not fertilize when dormant.

Miltonia Regnellii Aurea

MILTONIA

All warm growing, these are excellent for cut flowers or display.

- OC-255—*Moreliana* x *Russelliana*—Dark purple, red. 1½", 2"
- OC-256—*Purple Queen* x *Goodale Moir*—Yellow and Purple. 1½"
- OC-257—*Gayity* x *Regnellii*—Cream yellow, spotted purple. 1½", 2"
- OC-258—*Warscewiczii*—A superior hybrid strain, purple and brown. 2", 3", 4"
- OC-259—*Warscewiczii* x *festiva*—Yellow brown. 1½", 2"
- OC-260—*Festiva* x *Russelliana*—Red brown. 1½"
- OC-261—*Festiva* x *Purple Queen*—Dark purple. 3"
- OC-262—*Regnellii aurea* x *Clowesii*—Large, yellow spotted purple. 2", 3"
- OC-263—*Spectabilis* x *Goodale Moir*—White spotted purple. 1½"
- OC-264—*Warscewiczii* x *Regnellii aurea*—Rich bronze yellow. 1½", 2"

MILTONIDIUM

Crosses between *Miltonia* and *Oncidium*. This group shows tremendous promise. *Miltonia* adds size with the *Oncidium* giving wonderful sprays. Truly a very fine combination.

- OC-265—*M. Warscewiczii* x *O. Sawyeri*—Bronze yellow. 2", 3"
- OC-266—*Pert* (*O. Triquetrum* x *M. Warscewiczii*)—Bronze red, dwarf. 2", 3"
- OC-267—*M. Spectabilis* x *O. Ornithorynchum*—Pink and rose. 2"
- OC-268—*M. Warscewiczii* x *O. Splendidum*—Large flower, bronze. 1½"
- OC-269—*M. Warscewiczii* x *O. Lanceanum*—Rose pink and brown. 1½"
- OC-270—*O. Ornithorynchum* x *M. Warscewiczii*—Pink and brown. 2", 3"
- OC-271—*M. Warscewiczii* x *O. Maculatum*—Yellow and brown. 1½"
- OC-272—*M. Festiva* x *O. Blanchettii*—Yellow. 3"
- OC-273—*M. Warscewiczii* x *O. Varicosum*—Huge flower, yellow bronze. 3"
- OC-274—*M. Stellata* x *O. Leuchochilum*—Straw yellow, brown. 2"
- OC-275—*M. Festiva* x *O. Tigrinum*—Yellow and brown. 3"
- OC-276—*M. Flavescens* x *O. Leuchochilum*—Purple and yellow. 1½"
- OC-277—*M. Festiva* x *O. Altissimum*—Bright yellow. 1½"
- OC-278—*O. Maculatum* x *Miltonidium Lee Hirsch*—Huge bronze yellow. 1½"

MILPASIA

These are crosses between *Miltonia* x *Aspasia*. Wonderful texture and long lasting flowers.

- OC-279—*Candissa* (*A. Principissa* x *M. Candida*)—Brown white lip. 3"
- OC-280—*Gold Star* (*A. Principissa* x *M. Flavescens*)—Green, yellow. 1½"

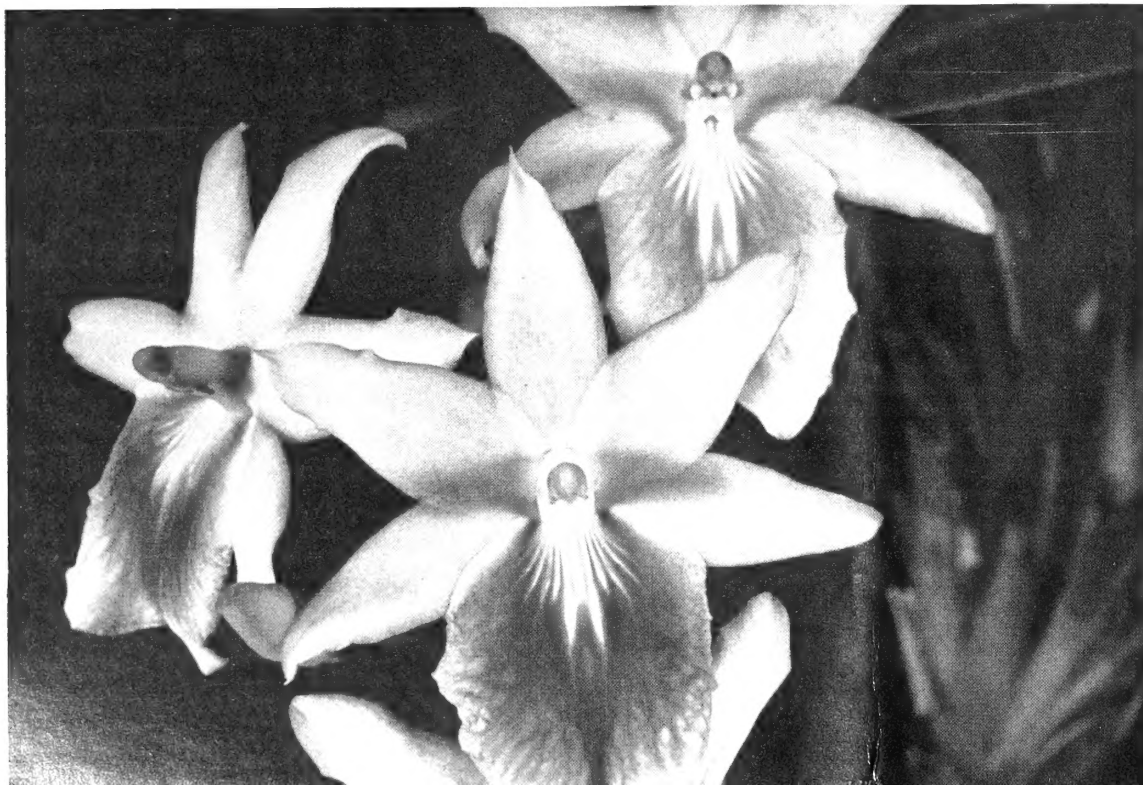

MILTASSIA

A new group combining *Miltonia* and *Brassia*. Wonderful spray orchids.

- OC-281—*B. Braciata* x *M. Bluntii*—Green and brown. 1½", 2"
- OC-282—*B. Braciata* x *M. Moreliana*—Rich purple. 1½"
- OC-283—*M. Warscewiczii* x *B. Braciata*—Bronze and red. 1½"
- OC-284—*M. Festiva* x *B. Verrucosa*—Yellow green. 1½", 2"
- OC-285—*M. Stellata* x *B. Longissima*—Straw yellow. 3"
- OC-286—*B. Maculata* x *M. Wm. Kirch*—Bronze, purple. 1½", 2"
- mvarhvd.Wk xrx
- OC-287—*B. Braciata* x *M. Wm. Kirch*—Bronze and green. 1½", 2"

BRAPASIA (ASPASIA x BRASSIA)

- OC-288—*Panama* (*A. Principissa* x *B. Longissima*)—Dark, brown yellow. 3"
- OC-289—*A. Principissa* x *B. Gireoudiana*—Green and brown. 1½", 2", 3", 4"

ONCIDIUM

The dancing Lady Orchids. Our new hybrids make these a must for all. Much more vigorous than the old species with some beautiful color combinations. They are ideal for either cut flowers or pot plants. We have two basic types: (1) The New Miniature forms, (2) Large growing or standard forms.

MINIATURE ONCIDIUMS

OC-290—Triquetrum x Varicosum—Yellow bronze.	1 1/2", 2"
OC-291—Pulchellum x Gardneri—Sunset colors.	1 1/2", 2"
OC-292—Incurvum x Pulchellum—Rich pink.	3"
OC-293—Triquetrum—Red brown.	3"
OC-294—Pulchellum x Micropogon—Rose pink.	3"
OC-295—Pulchellum x Anna Rosa—Dark pink.	2"
OC-296—Pulchellum—Various shades of pink.	2"
OC-297—Anna Rosa (Pulchellum x Sylvester)—Dark pink.	2"
OC-298—Pulchellum x Haitense—Pinks.	2"
OC-299—Henekenii x Varicosum—Yellow and black.	3"

MINIATURE ONCIDIUMS MOUNTED ON LOGS

These are planted on pieces of Hawaiian Tree Fern and ideal to grow as such or to naturalize on trees or potted plants in the greenhouse.

OC-300—Pulchellum—shades of pink.	logs
OC-301—Waikiki Sunset x Intermedium—Dark yellow, flushed pink.	logs
OC-302—Pulchellum x Anna Rosa—Dark pink.	logs
OC-303—O. Triquetrum x Rodriguezia Secunda—Dark red.	logs
OC-304—Pulchellum x Variegatum—Sunset colors.	logs
OC-305—Anna Rosa (Sylvester x Pulchellum)—Dark pink.	logs
OC-306—Pastel x Haitense—Sunset colors.	logs
OC-307—Pulchellum x Compertia falcata—Light pink.	logs

LARGE GROWING ONCIDIUMS

OC-308—Carthagenense x Splendidum—Red bronze.	1 1/2", 2"
OC-309—Brazil x Concolor—Yellow bronze.	1 1/2"
OC-310—Brazil x Montanum—Brown and yellow.	1 1/2"
OC-311—Oblongatum x Nona—Huge sprays, yellow.	2"
OC-312—Divaricatum x Lanceanum—Bronze.	3"
OC-313—Brachyandrum x Hyphamaticum—Yellow and brown.	3"
OC-314—Maureen x Bicallosum—Yellow bronze.	3"
OC-315—Mem. Pepita de Restrepo (Luridum x Splendidum)—Yellow green.	3"
OC-316—Kramerianum—Butterfly like flowers, Orange.	3"
OC-317—Luridum x Lanceanum—Green and pink.	4"
OC-318—Blanchettii x Crispum—Bronze yellow.	4"
OC-319—Guttatum—Pink and Green.	3", 4"
OC-320—Altitissimum—Yellow and Brown.	5"
OC-321—Kanoa x Varicosum—Bright yellow.	1 1/2"
OC-322—Lenalea (Altitissimum x Sarcodes)—Yellow and Brown.	2", 3", 4"
OC-323—Sprucei x Splendidum—Large yellow.	1 1/2"
OC-324—Ornithorynchum x Leucochilum—Dark pink.	2", 3"
OC-325—O. Stenotis x Powellii—Dark brown.	3", 4"

Phaio-Calanthe Stanny

BRACIDIUM

Crosses between Brassia and Oncidium. These are very fine and greatly increase flower size.

OC-326—Betty Shiraki (O. Sphacelatum x B. Braciata)—Yellow green and brown spots.	6"
OC-327—O. Lanceanum x B. Caudata—Green and pink.	1 1/2", 2", 3"
OC-328—B. Gireoudiana x O. Faye—Dark green, spotted pink.	1 1/2"
OC-329—D. Gireoudiana x O. Maculata—Yellow and brown.	1 1/2", 2"
OC-330—B. Gireoudiana x O. Isthmii—Yellow and brown.	2", 3"
OC-331—O. Blanchettii x B. Gireoudiana—Yellow green.	3"
OC-332—O. Lanceanum x B. Longissima—Bronze.	1 1/2", 2"
OC-333—O. Papilio x B. Maculata—Huge flower, yellow.	3"
OC-334—O. Kramerianum x B. Maculata—Similar to above.	3"
OC-335—B. Allenii x O. Lankesteri—Huge spikes, straw yellow.	3"
OC-336—B. Maculata x O. Crispum—Bronze brown.	3", 4"
OC-337—O. Ansiferum x B. Longissima—Yellow.	1 1/2"
OC-338—O. Wall x B. Gireoudiana—Green yellow.	1 1/2", 2"
OC-339—O. Papilio x B. Longissima—Bronze yellow.	1 1/2", 2"

ODONTONIA

Quite distinct from the cool growing types you are accustomed to, these warm growing hybrids are most attractive being a distinct improvement over the parental types.

OC-340—Debutante (M. Warscewiczii x O. Cariniferum)—Pink and Red, truly a fine hybrid, long spikes.	2", 3", 4"
OC-341—M. Warscewiczii x O. Esperance—Red and yellow.	3"
OC-342—O. Blanchetti x O. Cordatum—Yellow, green.	3"

BRASSIA

Normally one only finds species available in this genus. We have found a few outstanding individuals and are pleased to offer here hybrids from them. They are most attractive pot plants.

OC-343—Longissima x Gireoudiana—Green bronze.	2", 3", 4"
OC-344—Longissima x Verrucosa—Green, spotted.	2", 3", 4"
OC-345—Caudata x Longissima—Green.	1 1/2", 2", 3"
OC-346—Gireoudiana x Maculata—Green and Brown.	1 1/2", 2"
OC-347—Allenii x Caudata—Straw yellow.	3", 4"
OC-348—Verrucosa grandiflora x Gireoudiana var. majus—Green, the best of the genus.	1 1/2"

Oncidium Lanceanum

OTHER INTERGENERIC ONCIDIUM TYPE CROSSES

We do not have enough of any one to group them in sections.

OC-349—Milt. Festiva x Trichopelia Coccinea—Red and brown. 1 1/2"

OC-350—Rodcidium Tahiti (O. Flexuosum x R. Secunda)—Red, very fine miniature. 1 1/2", 2", 3", 4"

OC-351—Onc. Pulchellum x Comparetia falcata—Pale pink, miniature. 2"

OC-352—O. Altissimum x Comparetia falcata—Pale yellow-minature. 1 1/2", 2"

OC-353—Rod. Secunda x Onc. Gardeneri—Dark red. 1 1/2"

OC-354—Brassia Chloroleuca x Trichopellia Suavis—White, cream large flower. 3"

OC-355—Pescatoria cerina x Chondoryncha Discolor—Cream, purple lip. 3"

OC-356—Milt. Warscewiczii x Barlingtonia Fragrance—Pale pink and brown. 3"

OC-357—Milt. Warscewiczii x Trichopellia Suavis—Very large flowers, pink. 2"

OC-358—Milt. Spectabilis x Rod. Secunda—Red, miniature. 1 1/2", 2"

OC-359—Odont. Cervantesii x Brassia Gireoudiana—Star shape, green. 1 1/2"

TWO NEW NOVELTY PHALAENOPSIS CROSSES

We usually list Phalaenopsis in our Fall catalogue. However, through our new embryo cultures we are able to offer two new crosses that we feel sure you would like to get as early as possible. Thus you can work your skill to quickly flower them. OC-360 has a great potential for red and OC-361 for yellow. Be sure to try these.

OC-360—Renanthera Storiei x Phal. R. H. Montgomery Tetraploid—Grows like Phalaenopsis—could be the first red Phalaenopsis. 1 1/2"

OC-361—Vanda Spatulata x Phal. R. H. Montgomery Tetraploid—Deep yellow—fine shape. 1 1/2"

UNUSUAL SPECIES & HYBRIDS

We are listing a few unusual plants that are compatible with a Cattleya house culture. We don't grow the large number of species we used to as the new hybrids are for the most part so vastly superior. However, we still grow the best of them and are pleased to offer these to you.

OC-362—Phaiacalanthe Stany—A wonderful hybrid, cream and red-Late Winter. 4", 5"

OC-363—Phaius Gravesii (Wallichii x Grandifolius)—Bronze-silver back/purple lip, Spring. 6"

OC-364—Brassovola Digbyana (Honduras)—The grandfather of all Brassos, green/hued fringed lip, Spring. logs

OC-365—Brassovola Glauca—White-purple eyes in lip, Winter. logs

OC-366—Coelogyne Massangeana—Golden chain orchid, various 6"

OC-367—Epidendrum Ciliare—Green/white lip. logs

OC-368—Grammatophyllum Scriptum var. Tigrinum—Yellow-spotted black. 6"

OC-369—Laelia Anceps—Lavender-long spikes, Winter. logs

OC-370—Amoena (Anceps x Pumila)—Dwarf-dark purple, Winter. 4"

OC-371—Peristeria elata—Pure white—Dove Orchid. 6"

HAWAIIAN ANTHURIUM HYBRIDS

Excellent subject to grow along with orchids. In tropical regions they make wonderful garden plants. Flowers last an exceptionally long time as cut flowers. We cannot ship to California.

CULTURE:

They require 50% shade—foliage and flowers burn in strong light. Keep moist at all times and water heavily. Humidity should never be below 70%. Temperature not less than 60 degrees at night. Pot in any good organic compost as you would a soil plant. Fertilize frequently. They are heavy feeders. Spray regularly with DDT to control thrips which cause white streaks in the flowers.

OC-372—Andreanum, Hybrids—These are the large flowers you see in the florist's window. They make wonderful cut flowers. All sizes offered are flowering size. Colors: Blood Red, Pink, Orange and Red.

OC-373—Andreanum, pure white—Quite rare and much desired. Flower size

OC-374—Anthurium Scandens (Trailing Anthurium)—Vine-like, white flowers, pearl-like seeds. 7"

OC-375—Anthurium Scherzerianum—Dwarf plants with brilliant flowers. Flowers curiously twisted. Hence the name "Pig Tail Anthurium." Wonderful pot plants as they do not take up much room. 4"

Brassovola Digbyana

ORCHIDS -- Direct from Hawaii -- *nature's greenhouse*

In this, our ninth catalogue, we have tried to list orchids in a clear and culturally valuable manner.

Except where otherwise specified, figures preceding price quotations are pot sizes. The term "log" means a plant growing on a Hawaiian tree fern section.

We try to ship within three days after receipt of any order. Many customers are amazed that an order placed with us is often serviced faster than one placed with a nurseryman nearby. We deliver plants safely to any part of the world with Guaranteed Satisfaction on a money back policy.

INSTRUCTIONS FOR ORDERING

TERMS—Cash with order, no C.O.D.

DISCOUNTS—We offer quantity discounts. Orders totaling \$99.00 or less are sold at retail list as quoted. Larger orders discounted as follows: \$100.00 to \$249.00 @ 10%; \$250.00 to \$499.00 @ 15%; \$500.00 to \$749.00 @ 20%; \$750.00 to \$999.00 @ 25%; over \$1000.00 @ 33 $\frac{1}{3}$ %. Discounts apply only to our catalogue stock, and do not apply to special quotations.

SHIPPING—Plants shipped out of pots. Advise if we may substitute size and variety when out of stock. No packing charges.

ORDERING—List the plant name and number. No import permits required for entry into the United States. Foreign countries, check your requirements.

REMEMBER—We Guarantee Satisfaction. All plants are offered subject to prior sale. Wm. Kirch—Orchids Ltd., in no way guarantees crops from these plants as they go beyond our control. In the event of a claim, our liability is limited to purchase price. This list cancels all previous quotations.

Have You Tried Our

ORCHID PLANT-A-MONTH PLAN?

*Get Prize Orchid Plants, personally
selected for you by Wm. Kirch,
at special low prices!*

We've hit upon an easy, low cost way for you to start or add to your collection of prize orchid plants. We call it the Kirch Orchid Plant A Month Plan, and this is how it works. You decide how much you want to spend each month—\$7.50, \$10.00 or \$15.00, including air shipment to the United States (Foreign orders—F.O.B. Honolulu)—and leave the rest to us. We'll carefully select choice hybrid Dendrobiums, Vandas, Cattleyas, Phalaenopsis and Botanicals. A different type and color each month . . . and ship it to you in bud, ready to flower shortly after you receive it. By ordering an orchid plant a month for a year, you'll not only accumulate a good selection of colors and variety but also you'll have an orchid plant in bloom every month of the next year.

Please advise whether you prefer to remit every month when you place your order or have us ship and bill you automatically each month!

*Take Advantage of Our Service . . . Another Exclusive,
Guaranteed Service*
